Skills

- **Languages**: C++, JavaScript, C, PHP, JAVA, Python
- **Frameworks**: HTML and CSS, Bootstrap, NodeJS, React
- **Tools**: MySQL, MongoDB
- **Soft Skills**: Problem Solving, Team Player, Project Management, Adaptability

Projects

- **AI-Powered Inventory & Sales Management System | Github** Dec 2025
  - Built a full-stack inventory platform with role-based access control and real-time stock tracking using REST APIs.
  - Integrated Google Gemini AI chatbot for automated inventory queries and user assistance.
  - Developed analytics dashboard and automated invoice/report generation with secure JWT authentication.
  - **Tech stacks** : React.js, Node.js, Express.js, MongoDB, Gemini AI, Tailwind CSS
- **Healthcare Management System | Github** Sep 2025
  - Developed a secure healthcare web application for managing doctor appointments, patient records, billing, and clinic administration.
  - Implemented dynamic appointment scheduling, real-time slot availability, and automated email confirmations
  - Enhanced usability with data visualization components and responsive design
  - **Tech stacks** : HTML, CSS, JavaScript, PHP, MySQL
- **Horticultural Crops Web Solution | Github** June 2025
  - Developed a full-stack horticultural e-commerce platform providing crop-specific market data, storage guidelines, pricing insights, and value additional details.
  - Built interactive category pages for fruits, vegetables, herbs, spices, and nuts with search and chatbot integration.
  - Implemented shopping cart, checkout system, and backend database for user orders and price management.
  - **Tech stacks** : HTML, CSS, JavaScript, PHP, MySQL

Training

- **Data Structures and Algorithms** June 2025 – Aug 2025
  - **About:** Learned core concepts of Data Structures and Algorithms using C++. Gained hands-on experience with arrays, linked lists, stacks, queues, trees, graphs, sorting, searching, recursion, file handling, and OOP principles.
  - **Project Overview:** Built a Dice Game in C++ using DSA concepts including stack for game history, sorting for leaderboard, file handling for save/load, and OOP for game structure.
  - **Tech stacks :** C++ · OOP · Data Structures · Algorithms · File Handling

Certificates/Certifications

- Data Structures and Algorithms | ChiperSchools June 2025
- Responsive Web design | Free code camp Feb 2024
- Fundamentals of Digital Marketing | Board Infinity Oct 2023

Achievements

- **Practicing project deployment and hosting**: Jan 2025
  Deployed full-stack applications on cloud platforms render and vercel with backend APIs and database connectivity.
- **Secured All India Rank 1700 in B. Arch Entrance Examination:** Jan 2023
  Among thousands of participants across India .

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.45*** Since August *2023*
- **Narayana Junior Collage** Gudavalli, Vijayawada
  Intermediate; **Percentage***: 90.3* April 2021 - *March 2023*
- **Narayana High School** Repalle, Bapatla
  Matriculation; **Percentage***: 100* April 2018 - March *2021*
